Electrical Construction & Project Management / Administrative / Technical Support

Residential, Commercial, Industrial, Government Renewable Energy, Telecom, Healthcare, Biopharmaceuticals, Hospitality, Venture Capitals, Large Warehouse/Retail/Grocery Stores, Schools, Detention Center, Water Treatment Facility, Correctional Facilities

17 Years as a journeyman electrician leading and managing large-scale projects through all phases and applications in the areas of electrical installation and management of new construction and services. Experience and capability of overseeing and providing administrative and construction support to projects from the beginning concept to end. Possesses a **combination of relevant hands-on experience, and certifications with direct supervision and the training of countless apprentice electricians. An organized, critical thinker and problem solver who performs calmly under pressure as a front-line leader with ability to own project definition, scope monitoring, and scheduling at all levels. California Certified General Electrician #149993 (Active) / Associated Builders and Contractors (ABC). Expertise leading large scale commercial/industrial electrical projects in the greater San Diego and San Francisco, CA area with a recent relocation to the Washington, DC area seeking a new position with a progressive organization.**

Brief Overview of Leadership & Key Successes

Company Revenue Growth: Realized 100's of thousands of dollars of change orders following the review of major issues found within electric blueprints/schematics. **100% Adherence to Contract Specifications:** Zero punch list post the completion of extensive AT & T cell tower project.

- Planning, overseeing, managing and directing projects as part of a larger construction project.
- Supervising, providing direction, assigning and scheduling, the work of electrical crew and helpers.
- Reviewing project documents such as estimates, proposals and contracts.
- Performing as liaison between contractors, vendors and inspectors.
- Monitoring costs, material flow and resource allocation.
- Attending and participated in meetings to successfully coordinate work activity.
- Training and instruction of team members to enforce safety regulations, rules, and working conditions.

Professional Experiences

ELECTRICIAN FOREMAN, PRECISION ELECTRIC GROUP, San Francisco, CA (2018 – 2019)

Worked as the first point of contact and one-man operation in the beginning stages that later allowed Precision Electric Group to develop into a full-service company. Initial boots on the ground for the opening of new office in San Francisco, CA. **At the forefront of the company brand image through building relationships with current clients and prospecting of new client contract opportunities.**

Other Project Management & Leadership Contributions:

- Responsible for the planning and scheduling of all logistics related to work scope, safety, and documentation.
- Facilitated and expedited the flow of material, tools, and information.
- Monitored productivity to meet deadlines, on budget and according to plans and standards.
- Ensured quality assurance of projects to be examined by client.
- Active participation in project meetings.

ELECTRICIAN LEAD, PRECISION ELECTRIC COMPANY, San Diego, CA (2016 – 2018)

Supervised and directed other electricians and crew while monitoring the performance of their assigned responsibilities. Made certain code requirements, safety regulations and safe work practices were followed. ***Oversaw the timely performance of contract work, directing the fulfillment of contract obligations according to specifications, changes and agreed upon deadlines.***

Other Project Management & Leadership Contributions:

- Read, interpreted and worked from blueprints, plans, drawings and specifications.
- Supported in the daily/weekly/monthly planning of work assignments.
- Inspected crew work and assigned work areas to observe and determine work performed followed company and industry safety standards and practices.

ELECTRICIAN LEAD/FOREMAN, CACY ELECTRIC, Santee, CA (2013 – 2016)

Supported and worked closely with job site superintendent and subcontractors to ensure work was performed in a SAFE, efficient and quality manner. **Assisted with the workflow of government and private electrical contracts with a project cost range of \$500K - \$1M. Directly supervised and oversaw crews of 3 – 11 electricians.**

Other Project Management & Leadership Contributions:

- Assisted and participated in weekly quality control (QC) and construction meetings.
- Identified potential delays and hazards to reduce downtime or project delays.
- Design/Technical Installations: Variable Frequency Drives (VFD); Ansul Systems, Title 24 Lighting.

ELECTRICIAN FOREMAN, TECHSICO/TOWERS UNLIMITED, San Marcos, CA (2011 – 2013)

Led the field electrical division for 2 telecom companies for the design, oversight and installation of electrical systems including 2000 Amp 480 Delta back up battery storage systems, electrical buss taps, hot taps etc. **Fully involved in new builds and upgrades of cell towers and shelters for clients such as: AT& T, T-Mobile, and Sprint. Held role as direct supervisor of 9 journeymen and helpers.**

Other Project Management & Leadership Contributions:

- Successfully led and completed an AT&T new cell tower project at 100% performance (No redo's or corrections). Only 1 of 3 in the country to reach historic project completion standards during 2014. Worked vigorously and continuously throughout project execution resulting in meeting the contract requirements as well as the needs of the cellular company's client needs.
- Designed and developed employee safety incentive program to include incremental cash rewards. Significantly increased employee involvement to stress the importance of a safe working environment resulting in notable low recordable work-related injuries.

Early Career Experience
